

661335 Sizzix® Thinlits™ Die Set - Floral Lantern by Katelyn Lizardi

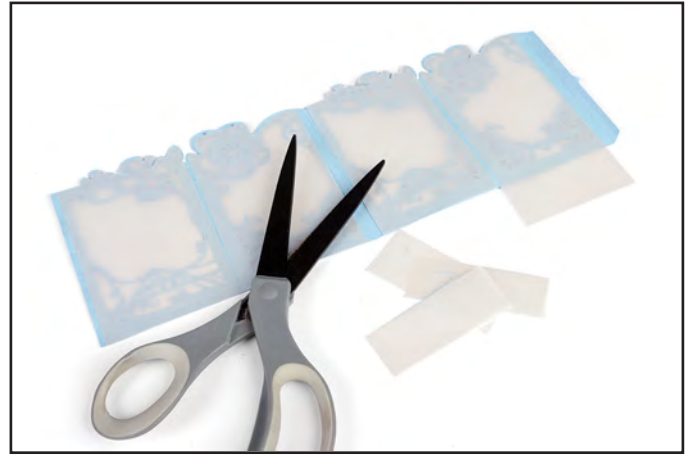

1. Die-cut decorative panels from cardstock. Cut 4 pieces of vellum at 2 3/4" wide and a minimum of 4 1/4" in length.

2. Apply adhesive to the long tab of one of the decorative panels and adhere them together.

3. Make two stacks of vellum (2 sheets each). Place decorative edge dies on one of the 2 3/4" edges of each stack. Indicator cutouts on the dies should be placed parallel to the edge of vellum as indicated by the red lines. Roll dies through a Sizzix machine using appropriate platform and sandwich.

4. Adhere the cut pieces of vellum to the back of the decorative panels. Trim to size if needed.

5. Complete your Lantern by adhering the remaining long tab to opposing edge.
