

662810 Sizzix® Framelits™ Die Set - Credit Card Sleeve & Tags by Eileen Hull®

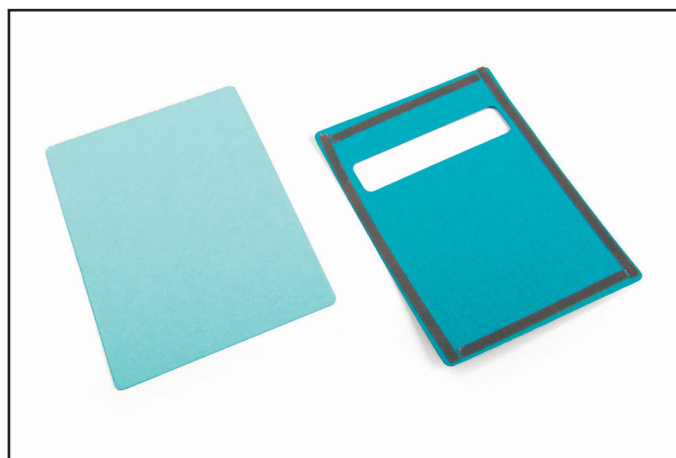

1. Die-cut out of desired materials.

2. Apply adhesive to the sides and bottom of the double-slotted front.

3. Adhere the double-slotted front to the back. This creates a holder with two slots and an open top.

4. Apply adhesive to all four edges of the single opening front.

5. Adhere the single opening front to the back. This creates a holder with a single opening. There are many combinations that can be used to create different variations of the Credit Card Sleeve. Be creative!
